HERITAGE INVENTORY

REVIEW 2018

Executive summary

The review of the Municipal Inventory of Heritage Places is a requirement of the *Heritage Act (1990)*. The assessment criteria detailed in the State Heritage Office's guidelines entitled *Criteria for the assessment of local heritage places and areas* (Appendix 1) as recommended in *State Planning Policy 3.5 Historic Heritage Conservation*, has been the primary guiding document for the Heritage Inventory review for the Shire of Goomalling.

The review references the original 1997 Municipal Inventory of Heritage Places. There was no historical overview within the original document, and the compilation of an historical overview is not in the scope of this review.

Community consultation is an essential element of the review process. Attempts to garner community support were relatively unsuccessful although there was interest from Councillors and the Historical Society.

The historical information associated with each place record has been identified, extracted, and acknowledged from the published history of Goomalling: Sewell, B. *Goomalling-A Backward Glance-A History of the District*.

The draft version of the Heritage Inventory Review was presented to Shire Council as a work in progress to provide a foundation from which to garner community comment in order to finalise the review.

Each place and site in the 1997 inventory has been reviewed, including site photographs of most places, excluding places that are not visible from the public space and require entry to private property.

The 1997 Municipal Inventory of Heritage Places listed the following 22 places including sites:

- 1 Goomalling Railway Station (fmr)
- 2 Goomalling District Hospital
- 3 Goomalling Tavern (Hotel)
- 4 Goomalling Farmers Club
- 5 Senior Citizens Hall (fmr Masonic Lodge)
- 6 Goomalling War Memorial Hall
- 7 Goomalling Post Office
- 8 Union Bank and Quarters (fmr)
- 9 National Bank (fmr) Road Board Office (fmr)
- 10 Bank of NSW (fmr) Bendigo Bank cnr Railway Tce & Forrest St
- 11 Headmaster's residence (fmr) [Goomalling Historical Society]

A number of place names have been amended as part of the review, to revert to original place names where possible, with the abbreviation (fmr) after the name, informing that it was a former name.

In the course of extracting information about each place, a number of other queries arose as to whether the places still exist or are of significance to the community for consideration; some of those questions remain unanswered. Those places include; railway siding sites, the clay pits, Jaff's house (cnr Quinlan & James), 2 cottages in Throssel Street, Cecil Royal's "Navenby", 1968 kindergarten, Konnongorring CWA, 5 railway cottages at Jennacubbine, and various homesteads that are documented in the Shire's history publication, to name a few.

In the context of the entirety of the Shire of Goomalling, gradings (management categories) have also been reviewed. Gradings are critical to providing some guidance to the owners, managers and the Shire of Goomalling, to respond appropriately to each heritage place. Based on the assessed values, gradings have been determined, consistent with the assessed level of significance for each place.

The State Heritage Office's guidelines (Appendix 2) outline levels of significance and 'desired outcomes' in deference to gradings to ensure all parties have a clear expectation associated with the assessed level of significance. Therefore, grading have been developed and implications detailed to ensure clear outcomes.

Importantly, the highest gradings: A and B are usually recommended to form the local governments' 'Heritage List' to provide formal provisions of the Town Planning Scheme, including the Heritage Areas, and C graded places have no statutory protection or management control, although are recommended for retention and/or interpretation as appropriate.

The Shire Council of Goomalling preferred that the Heritage List be comprised of Grade A places and only Shire owned Grade B places due to community consultation and objections to Grade B listings. Accordingly, those places have been recorded as B- in recognition of their level of heritage significance, but will afford the same level of no constraints as a Grade C places in deference to the community

HERITAGE INVENTORY

REVIEW 2018

concerns. Therefore, those Grade B- places, although being assessed of greater cultural heritage significance than Grade C places, will have the same recommended outcome; retention and/or interpretation as appropriate, with no relevance to the provisions of the Town Planning Scheme. The retained Grade B places that form part of the Heritage List will be identified as Grade B+ places.

In retaining the Grade B in two categories; Grade B+ Heritage List; Grade B- no constraints pre Grade C, the review is consistent with the heritage significance assessment processes and outcomes as required of an inventory review.

Recognised sites are identified within the definition of a 'place'. As a consequence, sites are included throughout the document.

Grade A and specific Grade B+ places form the Shire of Goomalling's Heritage List. The 2 Grade A places are already entered in the State Heritage Office's Register of Heritage Places.

There are no recommendations for any further Grade A places.

Grade B- places are recognised as having considerable significance to Shire of Goomalling but are not included in the Heritage List as instructed by Shire Council.

The 2018 review of the Shire of Goomalling's Heritage Inventory further reiterates the significance of the rich heritage and history of the Goomalling town and region, and provides strategic guidance to conserve those places assessed as having a high level of cultural significance.

REVIEW 2018

1.0 Heritage

Heritage means different things to different people, and can be quite subjective. However, objective consideration has been provided through the State Heritage Office guidelines: *Criteria for the assessment of local heritage places and areas* (Appendix 2) that provide a consistency of assessment and comparative significance both within the local government area and to other places throughout the state.

2.0 Process

The process is relatively tried and true.

A desktop review of the existing (1997) heritage inventory provides a basic view of overview with particular regard to the management categories (Grades) with consideration of the Heritage List inclusion.

It's a strong recommendation that only the Heritage List is appended to the Town Planning Scheme (not the entire Inventory).

Information and photographs (where possible) recorded the current condition and integrity of each place.

Statements of Significance for each place were reassessed against the *Criteria for the assessment of local heritage places and areas*.

Draft review report was prepared for Council consideration and was further amended as required, to include Grade A and only Grade B+ places (not in private ownership), in the Heritage List. Grade B- places, at Shire Council directive are NOT included in the Heritage List.

Council's consideration and comments were attentioned, the document amended as required, in preparation for the report to be endorsed by Council.

The Heritage Inventory Review 2018 is a dynamic document with an electronic version to manage the Shire of Goomalling's Heritage Inventory in-house for the future.

3.0 Documentary research

The Shire of Goomalling's history is documented in the Shire's historical publication: Sewell, B. *Goomalling-A Backward Glance-A History of the District*.

All research for the place records was undertaken with reference to that publication, extracted and acknowledged accordingly.

4.0 Criteria for significance

Every place either previously listed or proposed for inclusion in the Shire of Goomalling's Heritage Inventory Review 2017, has been assessed within the State Heritage Office's guidelines; *Criteria for the assessment of local heritage places and areas* (Appendix 2). The four criteria for the assessment are summarised hereunder:

Assessment of significance

Aesthetic value*

Criterion 1 It is significant in exhibiting particular aesthetic characteristic.

Historic value

Criterion 2 It is significant in the evolution or pattern of the history of the local district.

Research value

Criterion 3A: It has demonstrable potential to yield information that will contribute to an understanding of the natural or cultural history of the local district.

Criterion 3B: It is significant in demonstrating a high degree of technical innovation or achievement.

Social value

Criterion 4 It is significant through association with a community or cultural group in Western Australia for social, cultural, education or spiritual reasons.

Degree of significance

Rarity

Criterion 5 It demonstrates rare, uncommon or endangered aspects of the cultural heritage of the local district.

Representativeness

Criterion 6 It is significant in demonstrating the characteristics of a class of cultural places or environments in the local district.

* For consistency, all references to architectural style are taken from Apperly, R., Irving, R., Reynolds, P. A *Pictorial Guide to Identifying Australian Architecture. Styles and Terms from 1788 to the Present*, Angus and Robertson, North Ryde, 2002.

REVIEW 2018

Condition refers to the current state of the place in relation to each of the values for which the place has been assessed. Condition reflects the cumulative effects of management and environmental effects.

Integrity is a measure of the likely long-term viability or sustainability of the values identified, or the ability of the place to restore itself or be restored, and the time frame for any restorative process.

Authenticity refers to the extent to which the fabric is in its original state.

5.0 Levels of significance

For each place deemed to be of heritage value, a level of significance and consequent grading is applied.

The following table is extracted from the State Heritage Office's *Criteria for the assessment of local heritage places and areas* (Appendix 2 p.22). It is amended to illustrate the draft proposed gradings listed against them with respect to the Shire of Goomalling's 2018 review.

Each place assessed was graded on the basis of the following levels of significance:

LEVEL OF SIGNIFICANCE	DESCRIPTION	DESIRED OUTCOME
A Exceptional significance	Essential to the heritage of the locality. Rare or outstanding example.	The place should be retained and conserved. Any alterations or extensions should reinforce the significance of the place, and be in accordance with a Conservation Plan (if one exists for the place).
B + Considerable significance	Very important to the heritage of the locality. High degree of integrity/authenticity.	Conservation of the place is highly desirable. Any alterations or extensions should reinforce the significance of the place.
B - Considerable significance	Very important to the heritage of the locality. High degree of integrity/authenticity.	Conservation of the place is highly desirable. Any alterations or extensions should reinforce the significance of the place.
C Some/Moderate significance	Contributes to the heritage of the locality. Has some altered or modified elements, not necessarily detracting from the overall significance of the item.	Conservation of the place is desirable. Any alterations or extensions should reinforce the significance of the place, and original fabric should be retained wherever feasible. Interpret the site, ruin or archaeological remnants

REVIEW 2018

7.0 Grades

Further to State Heritage Office's *Criteria for the assessment of local heritage places and areas* (Appendix 1), an important part of the recognition and understanding of cultural heritage significance of a place, is that some guidance is provided to the owners, managers and statutory authority, to respond to that assessed significance.

Grades have been determined relevant to the assessed level of significance for each place. Implications for each recommendation are also summarised.

Grade A A place of exceptional cultural heritage significance to Shire of Goomalling and the state of Western Australia, that is either in the Heritage Council of Western Australia's Register of Heritage Places, or worthy of consideration.

A place worthy of recognition and protection through provisions of the Shire of Goomalling's Town Planning Scheme.

Planning application needs to be submitted to Shire of Goomalling for any proposed development.

The development application needs to be submitted to State Heritage Office (SHO) for approval for any proposed development.

Recommend: Maximum encouragement to owners to retain and conserve the place. Full consultation with property owner prior to making the recommendation.

IMPLICATIONS of REGISTRATION:

A Memorial is lodged on the Certificate of Title of the Registered place under the provisions of the *Heritage Act (1990)*.

By virtue of the *Heritage Act (1990)*, the owner is bound to conserve the place.

ALL development (including demolition) MUST be referred to State Heritage Office for consideration PRIOR to undertaking any works.

The Shire of Goomalling cannot approve anything contrary to State Heritage Office recommendations.

Private owners of Registered places qualify for the annual State Heritage Office's Heritage Grants Program funding. A Conservation Management Plan or Conservation Management Strategy is a pre-requisite for conservation works funding assistance from the State Heritage Office.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding. It is funded loosely on a \$ for \$ basis, although 'inkind'

HERITAGE INVENTORY

REVIEW 2018

contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is a pre-requisite for conservation works funding, and can also be funded.

Local Government owned Registered places qualify to claim for \$10,000 per annum 'Disability allowance' through the Grants Commission. Up to a maximum of \$50,000 is allowed for 5 buildings or more.

Grade B+ A place of considerable cultural heritage significance to Shire of Goomalling that is worthy of recognition and protection through provisions of the Shire of Goomalling's Town Planning Scheme.

The Goomalling Shire Council prefer that only Shire owned Grade B places be included in the Heritage List.

Planning application needs to be submitted to Shire of Goomalling for any proposed development.

Recommend: Retain and conserve the place. Undertake photo record of the place prior to any development.

IMPLICATIONS:

Planning applications must be submitted to Shire of Goomalling for approval prior to undertaking any works.

It is funded loosely on a \$ for \$ basis, although 'inkind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding, and may also be funded on same basis as works funding assistance.

Grade B- A place of considerable cultural heritage significance to Shire of Goomalling that is worthy of recognition and protection through provisions of the Shire of Goomalling's Town Planning Scheme.

However, the Goomalling Shire Council prefer not to include privately owned Grade B places in the Heritage List and therefore not included in the provisions of the Town Planning Scheme or any level of protection or management.

Recommend: Retain and conserve the place. Undertake photo record of the place prior to any development.

REVIEW 2018

IMPLICATIONS:

If a planning application is submitted to the Shire of Goomalling for approval, if approved a condition of development should require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are no statutory requirements pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding. It is funded loosely on a \$ for \$ basis, although 'inkind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding, and may also be funded on same basis as works funding assistance.

Grade C A place (including a site with no built remains) of some cultural heritage significance to Shire of Goomalling.

No constraints.

Recommend: Encourage retention of the place, or where there are ruins, archaeological findings or no built remains: Interpret the place.

IMPLICATIONS:

If a planning application is submitted to the Shire of Goomalling for approval, if approved a condition of development should require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are no statutory requirements pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding, although at a lower priority. It is funded loosely on a \$ for \$ basis, although 'inkind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. REVIEW 2018

8.0 Heritage List

The Heritage Inventory Review 2018 proposes the 2 Grade A and Grade B+ places form the Shire of Goomalling Heritage List.

The Heritage List comprises the places of the highest levels of heritage significance to the Shire of Goomalling. Assessed against the *Criteria for assessing local heritage places and areas*, it identifies Grade A places as those of State significance, recognised by into the Register of Heritage Places (Heritage Council of Western Australia).

Although Grade B places are assessed as having a high level of significance to the Shire of Goomalling, the Shire Council has directed that they not be included in the Heritage List.

Grade A places that form the Heritage List are primarily subject of the State Heritage Office provisions by virtue of their inclusion in the Register of Heritage Places, and although subject to the provisions of the Town Planning Scheme, the Shire of Goomalling cannot act contrary to the State Heritage Office determination for any development proposal.

All other places to be included in the Heritage Inventory (Grades B and C) have no statutory implications.

HERITAGE INVENTORY

REVIEW 2018

11.0 Aboriginal Heritage

The Heritage Inventory under the requirements of the Heritage Act (1990) is relevant to places of Aboriginal significance of the post-contact period only.

The Department of Aboriginal Affairs (DAA) oversees an “Aboriginal Sites Database” and works with Aboriginal people to protect their culture and to protect and manage places and objects of significance to Aboriginal heritage.

12.0 Conclusion

The 2018 review of the Shire of Goomalling's Heritage Inventory further reiterates the considerable significance of the rich heritage and history of the Goomalling town and region, and provides strategic guidance to conserve those places of assessed as having a high level of cultural significance, on the Heritage List.

C: Encourage retention; Archival record; Interpretation.

Address	7 Forrest Street		
Suburb/Town	GOOMALLING		
Reserve No:	Lot No.66	Plan/Diagram 11144	C.T. Vol Fol

STATEMENT OF SIGNIFICANCE

Walter Bottle's Residence (fmr) is significant for his association and his role in the development of Goomalling. The residence represents one of the few remaining residences of the 1910s associated with a business in town.

GRADING C: A place of some cultural heritage significance to Shire of Goomalling. Recommend: Encourage retention; Archival record; Interpretation.

CONSTRUCTION DATE	c.1912 Builder: Cadwallar. c.1925 north side addition
Uses	
CONSTRUCTION MATERIALS:	Brick and corrugated iron.
Other	
ARCHITECTURAL STYLE:	Federation bungalow with additions in that style.
DESCRIPTION	
The documentary evidence shows that the original home was a single frontage as evidenced by the existing south side (left) front, with a later addition adjoining on the north side. The 1912 section has English bond face brickwork, while the recessed section has stretcher bond brickwork. Both front walls have been rendered to dado height. The 1912 hipped roof remains and the addition is also hipped, both clad with corrugated iron. Both front verandas are bullnose with a decorative timber valance. There is a window in the original 1912 roof at the front.	
CONDITION: Fair/Good	INTEGRITY: High degree AUTHENTICITY: Moderate/high degree

HISTORICAL NOTES

Walter Bottle had come to WA in 1902 from Newport with his wife Mary, where he had run a saddlery business. He subsequently managed and then purchased the saddlery business in Goomalling and became a proponent of the town's development and actively involved in the Methodist Church and in charge of the Cemetery Board. Walter Bottle's home in c.1912, is next to his shop. Possibly the addition was in 1925 was when he had the two new shops constructed next door. During the early 1930s of the depression, Bottle was Secretary of the Unemployment Relief Committee, and attributed with invaluable service.

Address	9 Forrest Street		
Suburb/Town	GOOMALLING		
Reserve No:	Lot No.1	Plan/Diagram 11144	C.T. Vol Fol 1827/929

STATEMENT OF SIGNIFICANCE

Walter Bottle's shops (fmr) represent the commercial development of Bottle's saddlery business in the early development of the Goomalling town. Bottle was a significant and respected identity in the community. The shops are a good example of Interwar commercial in a regional town.

GRADING B: Shire of Goomalling 'Heritage List.' TPS: Development Application. Retain & conserve.

CONSTRUCTION DATE	1925, Builder: FW Wells.
Uses	
CONSTRUCTION MATERIALS:	Brick and corrugated iron.
Other	
ARCHITECTURAL STYLE:	Interwar commercial
DESCRIPTION	
The double front mirror image brick shops have a simple stepped parapet with edge moulding and decorative brackets. The recessed entries are central to the symmetrical frontage. There is shop front glazing above a low rendered dado and stained glass leadlight detailing to the highlight windows above the shop glazing.	
CONDITION: Good	INTEGRITY: High degree
AUTHENTICITY: High degree	

HISTORICAL NOTES

Walter Bottle (1867-1933) was first employed in 1904 in Goomalling by Mr A Fahmel who had opened a blacksmith and saddlery, with Mr Dolly Gray managing the saddlery business. W Bottle had come to WA in 1902 from Newport with his wife Mary, where he had run a saddlery business. He subsequently purchased the business and became a proponent of the town's development and actively involved in the Methodist Church and in charge of the Cemetery Board. Walter Bottle's home in c.1912, next to his shop. During the early 1930s of the depression, W Bottle was Secretary of the Unemployment Relief Committee, and attributed with invaluable service. By 1925, W Bottle had two shops constructed to continue his established saddlery, harness and boot making business. The tenancies attracted Norm Way tailor, and Hilda Uhe's "Wattle Tea Rooms". Hilda Uhe, a widow, had previously run Botherling Farm with her husband. There was a fire in the shops in 1932.

HISTORICAL NOTES

In 1923 community meetings took place to discuss establishing a hospital in Goomalling, and the means of raising the necessary funds. In 1924, the reserve was vested for the Goomalling Hospital. On 17 December 1927 a contract was signed to build the hospital after 8 different plans had been touted since 1913. Although government was to provide 50% of the funds, the community funded the entire construction. The hospital and maternity ward were opened in 1928 by the Governor William Campion. The vesting was granted to Goomalling Shire Council in 1989.

HISTORICAL NOTES

In 1906, Father Hoyne from New Norcia visited Goomalling, meeting at Slater Homestead, to discuss the possibility of a church in Goomalling. Later a committee was formed, to raise funds, and by 30 December that year a foundation stone was laid on the corner of Hoddy and Quinlan Street. A special train was chartered the holy mass assisted by the Lord Abbott of New Norcia and Father Hunt, the spiritual head of the Redemptorist Order of WA. In April 1907 a 4-day Easter festival boosted funds for the church and presbytery. The Sacred Heart Church was dedicated on 5 January 1908 by Dr Torres. A life size Stature from Spain was gifted by George and Mary Slater. In 1912, the Convent of Sacred Heart, a day school, was opened by the Presentation Order Nuns. The convent inaugurated a ball in 1932 that became an annual tradition. The post World War Two influx of European migrants boosted the Church's activity. In November 1951 a new Convent School was opened, with 120 students. Ten days later the original convent (weatherboard) burnt down. In 1952, popular parish priest left after 17 years. In 1969, the double storey convent building was demolished after significant damage caused by the Meckering earthquake in 1968. A new single storey building at a different site was opened on 31 May 1970.

HISTORICAL NOTES

The Goomalling Farmer's Club was originally formed in 1896 when proposals for Goomalling Agricultural Hall were mooted by messrs T Williams, J Forward, G Slater, Lockyer, Maloney and Giblett. In 1901 a subcommittee was formed under the chairmanship of A.B. Lockyer to establish their protocols. At a meeting on 2 June 1911, W Davenport convened a meeting where an interim committee was elected to form a club for the "comfort and convenience of farmers visiting town". Mr W.G. Eaton offered to finance the construction of a club building, and purchased lot 84 for that purpose. The club was opened on 12 July 1912 with 120 foundation members. W Davenport was appointed inaugural manager. Initially leased from Eaton, with an option to purchase that took place in January 1916. In 1923 the place was renovated and painted. In 1952 a bowling green was opened and led to the formation of the Goomalling Bowling Club. By 1954, the bowling green was floodlight and the adjoining land was acquired to expand the facility. The additional site allowed for a second bowling green, tennis courts and car park, the green being laid in 1960. The bowls interest led to the inclusion of women associate members in 1955 that consequently led to more renovations. The renovation was extensive, completed in 1960, when over 400 members attended the opening.

HISTORICAL NOTES

In 1906, Father Hoyne from New Norcia visited Goomalling, meeting at Slater Homestead, to discuss the possibility of a church in Goomalling. Later a committee was formed, to raise funds, and by 30 December that year a foundation stone was laid on the corner of Hoddy and Quinlan Street. A special train was chartered the holy mass assisted by the Lord Abbott of New Norcia and Father Hunt, the spiritual head of the Redemptorist Order of WA. In April 1907 a 4-day Easter festival boosted funds for the church and presbytery. The Sacred Heart Church was dedicated on 5 January 1908 by Dr Torres. A life size Statue from Spain was gifted by George and Mary Slater. In 1912, the Convent of Sacred Heart, a day school, was opened by the Presentation Order Nuns. The convent inaugurated a ball in 1932 that became an annual tradition. The post World War Two influx of European migrants boosted the Church's activity. In 1952, popular parish priest left after 17 years. The new church was erected between the existing old church and the presbytery. It was opened on 24 February 1963. The Lord Abbot of New Norcia, Rev G Gomez officiated in heatwave conditions to a gathering of 500 people. The church only designed for 250. Father O'Halloran served between 1956 and 1976.

HISTORICAL NOTES

With the establishment of the Goomalling Road Board in 1895, meetings were initially held at W.H. Butterly's Mumberkine House, and later in the rear room of Mumberkine Agricultural Hall until 1900 when the meetings were relocated to???. One of the four front room additions to the Mechanic's Institute in 1922, provided for the Road Board. In 1947 the Road Board acquired the National Bank building after discontent regarding the accommodation at the Memorial Hall and the need for more space after the Road Board took over the responsibility of the Local Board of Health. The bank building provided for the road board function and for the first time provided a residence for the Secretary. On 21 April 1966, the Minister for Local Government, LA Logan laid the foundation stone for the Shire of Goomalling administration offices and Council chamber. On the 26 August 1967, 600 people attended the opening. It was the first time in over 20 years that Councillors and Staff were housed under the same roof.

GOOMALLING WAR MEMORIAL HALL

Place No. 20

B(+): 'Heritage List.' TPS: Development Application
Retain & conserve.

HISTORICAL NOTES In 1904 the community was agitating for a hall in Goomalling rather than at Silver Hills some 3 miles away. Originally, on 9 September 1904, the site at lot 33, reserve 9428 was vested in the Mechanic's Institute. In 1909 they requested a transfer of the land- not approved. In 1910 a grant was offered, and a committee of 7 was appointed.

On 11 May 1911, the opening of the Mechanics Institute was celebrated with a ball. In January 1912, the library opened. In June 1914, lot 33, reserve 9428 vested in Goomalling Road Board.

In 1922 four rooms and a hall way added at the front, one of the rooms providing the Road Board office, the second, a ladies writing room, the third meeting room and the fourth available with a moveable partition between the third and fourth. At the rear, a stage proscenium and dressing rooms were added with a supper room below. The name was changed to the War Memorial Hall. In August 1922 the Honour board was unveiled in the main entrance.

In 1923 pictures commenced at the hall run by Mr Mee of Golden West Pictures, and additional tiered seating was installed at the rear of the hall.

In 1937, ratepayers were complaining about the accommodation at the hall, and immediately after World War Two, in 1945, the Roads Board acquired the National Bank building establishing their office and the residence for the Secretary. In 1955 acoustic tiles were installed. In 1957 the hall was enlarged and remodelled with a new stage area, toilets and a supper room and kitchen underneath. It was opened by Premier Hawke in March 1957. Goomalling Picture proprietors installed new RCA projection equipment and stereo sound. The remodelling works included a wider proscenium, a wide panoramic screen and a new biobox. (They ceased screening in 1962) The Road Board's boardroom was located in the front area of the hall until 1967 when the shire office opened.

HISTORICAL NOTES

Victor David Eaton was the second youngest son of twelve children of John Edward Eaton who established at Quellquelling. In 1929 Vic Eaton commissioned George Hewitt to build his double shops with rear dwelling. After marrying in 1930, he opened a grocery business. W Kemp occupied one of the shops selling fruit and vegies confectionary, light refreshments and afternoon teas. In the mid 1930s, the Depression was having a marked impact with the closure of several businesses in town, including Mason's East End Store (as it was known at that time), although Eaton had moved to his adjoining shop and capitalised on Kingston's closure, expanding his range of goods and services, leaving it under the management of Arthur Edwards (previously from I Royal's store), in order to concentrate on his garage and taxi service. In 1938 Eaton sold the property to Stan Meek.

The building makes a significant contribution to the cultural environment of the commercial centre of Goomalling along Railway Terrace. It is significant for the association with AA Smith and his son Coulter who ran a butcher shop in Goomalling for over 60 years, with considerable service and socialising with customers over that time.

GRADING B: Shire of Goomalling 'Heritage List.' TPS: Development Application. Retain & conserve.

CONSTRUCTION DATE	1947
Uses	
CONSTRUCTION MATERIALS:	Painted brick and corrugated iron
Other	
ARCHITECTURAL STYLE:	Post war

DESCRIPTION

The building shows the recessed entry on the west side of the frontage with shopfront glazing above a low dado. The highlight windows across the top have been painted. The parapet is a simple stepped rendered element, the height suggesting a high pitch gable roof. The veranda is a suspended canopy across the front. The side brick walls have been rendered to a considerable height.

CONDITION: Fair/Good **INTEGRITY:** Moderate degree **AUTHENTICITY:** Moderate degree

HISTORICAL NOTES

Opened in 1947, by AA Smith & son, the son being Coulter who ran the shop. In 1950 he installed innovative air-conditioning. His original timber shop buildings on the site were demolished. Coulter Smith departed in 1973 after a family association with the butcher shop that spanned over sixty years.

Reserve No:	Lot No.60	Plan/Diagram 34512	C.T. Vol Fol 788/133	

STATEMENT OF SIGNIFICANCE

The bank and residence is a fine representative example of Interwar Functional architecture in regional WA. The continuation of banking functions demonstrates an integrity and authenticity and a sense of place in the landmark presence in the town.

GRADE B: Shire of Goomalling 'Heritage List.' TPS: Development Application. Retain & conserve.

CONSTRUCTION DATE	c.1930
Uses	SITE: Boarding house, Bon Marche Store, Western Australian Bank (1911-1927) Bank of New South Wales (1927-1943, National Bank 1945-
CONSTRUCTION MATERIALS:	Rendered masonry and tiles.
Other	Ramps are intrusive
ARCHITECTURAL STYLE:	Interwar functional
DESCRIPTION The single storey rendered building wraps the corner at both street fronts about the truncated corner entry. The entry is accentuated by a parapet stepping along both street front walls. The symmetrical corner balanced with a longer frontage on Railway Terrace and the recessed semi-detached residence facing Forrest Street. The sets of two and three vertical format windows, light coloured render, and smooth stepped parapets, are all characteristic of the Interwar Functional style. The hipped tiled roof over the residence is typical of the domestic scale of the style.	
CONDITION: Good INTEGRITY: Moderate/high degree AUTHENTICITY: Moderate/high degree	

HISTORICAL NOTES

In 1906 A.Hoddy purchased the site from the original owner, B Ridley. Hoddy's Boarding House operated from 1906. Bon Marche store was located on this site. T. F. Quinlan took over the property (Bon Marche store in 1908, and his business boomed, necessitating a new double front store constructed in Railway Terrace. In 1911, the Western Australian Bank purchased the site having just established a branch. The site was subdivided, and the Bank of New South Wales purchased the corner lot in 1927 and opened their Goomalling branch in 1930, ceasing their operations in c.1943. In 1945 the National Bank purchased the premises.

STATEMENT OF SIGNIFICANCE

Goomalling Co-op is a substantial retail facility with a set of three shop fronts. It evidences change of functions and business owners over time and represents a sense of place for the social and commercial interactions that have taken place. Co-operative institutions are of historic and social importance in representing a country way of life. The substantial building contributes to the Railway Terrace streetscape, located opposite the railway station.

DESCRIPTION Single storey set of three semi detached shop fronts with the dominant frontage nearest the corner but not addressing the corner. The parapet frontage extends across the three shops with stepped detail over the dominant shop (near the corner) and a simple parapet continuing over the other two shops. The shop nearest the corner has an aluminium framed replacement shopfront. The remaining two shops have each retained their central truncated entries flanked by shop front glazing above dados. A suspended boxed canopy veranda extends along the front of the three shops with posts also supporting the corner end of the veranda.

CONDITION: Fair/Good **INTEGRITY:** moderate/high degree **AUTHENTICITY:** Low/moderate degree

HISTORICAL NOTES

The Goomalling Farmers' Co-op was formed in 1917 mostly due to the interest and efforts of the Farmers and Settlers' stalwart Steve McManus. 1000 shares at 1 pound each were issued and 2/3 quickly taken up. A Hills was appointed manager and the business was conducted in the form of agencies in Munyard and Kenworthy's building. In 1918 they started general storekeeping and accelerated that business to engage EC Roberts in 1922. In 1939, Garnet Royal established a chemist shop in one of the shop front, closing 40 years later.

DESCRIPTION

The two-storey brick building is situated at zero lot line and each side of the high brick side walls extends into rendered moulded gable parapets with chimneys at their apex. The frontage is symmetrical with three evenly spaced openings that comprise windows each side of a central door onto a balcony with rendered balustrade. The entire ground floor shopfront is a more recent intervention including the suspended canopy veranda. The shopfront is mosaic tiles with aluminium framed windows and central double doors.

CONDITION: Fair **INTEGRITY:** Low/degree **AUTHENTICITY:** Moderate degree

HISTORICAL NOTES

The original Union Bank building built in 1914, located elsewhere was managed by Arthur Miller, a popular bachelor. This site was purchased from AS Munyard by the Union Bank of Australia Ltd in 1919. The Union Bank operated from rented premises from 1916 until 1925 when this building was completed. The property had the first oxidising sewerage tank in the district. Edwin Harding was the Manager at the new premises. The bank branch closed in 1943 and the place was sold into private hands, changing ownership over the years.

STATEMENT OF SIGNIFICANCE

Anstey Park is the site of significant cultural events including rodeos and Paddy's Markets, commemorates local identity George Anstey, and war service. The CWA building is significant in representing the invaluable role of the organisation for country women and a sense of place for those associated in the Goomalling area. The CWA and Road Board's establishment of the adjoining Child Health Clinic was similarly significant to the Goomalling community. The building typifies the modest austerity style of Post war architecture and makes a significant contribution to the streetscape informing of an era and an institution.

CONSTRUCTION DATE	1954 Builder: M. Bianchini
Uses	Meeting place, Infant Health Centre
CONSTRUCTION MATERIALS:	Rendered frontage and remainder face concrete bricks on a granite stone foundation. Concrete tiled roof.
Other	Set back from the street front at the rear of the expansive grassed setting of Anstey Park. There is a commemorative plaque (1979) on a large rock, recognising the pioneers of the area.
ARCHITECTURAL STYLE:	Post war austerity
DESCRIPTION The single storey building is domestic in scale and style, with a gabled front porch supported by brick piers. The main roof is hipped. A second porch entry to the Infant Health Centre room is recessed on the west side, under the main roof.	
CONDITION: Poor/Fair INTEGRITY: High degree AUTHENTICITY: High degree	

HISTORICAL NOTES

The CWA in Goomalling was formed on 16 July 1929, establishing at the Goomalling Road Board office before building their own rest rooms. In 1939 the rest rooms in Forward Street were opened following a centennial gift from the government in honour of the district's pioneers. Anstey Park was the site of rodeo shows: "Jimmy Jones Buck Jumping Show". In the late 1920s Mrs Maria Curley ran a Paddy's Market on the site every Saturday selling pottery, cooked meat, afternoon teas and home-made sweets. The vacant site was developed by A Nichols, the town gardener, in honour of George Anstey's contribution to the district as a Councillor who served 1932—1946. The CWA built their rooms at the rear of the park in 1954 opened by the State President, Mrs Siminon on 3 December. This CWA was unique for not being owned by the CWA. The Infant Health Clinic rooms were jointly funded by the CWA and the Road Board. The water fountain in Anstey Park was erected on 25 April 1966 in commemoration of those who lost their lives in active service.

HISTORICAL NOTES

Postal services first established in town in 1904, and in 1906, the postal services doubled with the railway station, the stationmaster also providing postmaster duties. After Goomalling progress association agitation, a site was reserved for the post office in 1908, and tenders called in 1909. The foundation stone was laid in May 1910, and the phone exchange was operational in 1913. The Goomalling exchange had 4 switchboards, two trunk and two local, and up to eight telephonists, with two or three working nightshifts, right up until 1979 when the entire district converted to STD. In 1922 the front of the building was extended. In 1955 technician staff building was constructed. In 1993, the Post Office lost its official status and became a licensed post office under the private ownership and management. In 2004 an addition on the side facilitated the receipt of mail.

HISTORICAL NOTES In 1902 railway head reached Goomalling from Northam. New weighbridge installed in 1911. In 1912 the much-anticipated refreshment rooms were erected. The Goomalling Hotel proprietor, J McAuliffe was successful in tendering the refreshment rooms. In the late 1920s there was considerable agitation over the need for a new railway station building. During the World War Two years, the Balkans worked on the line. In 1960, the overhead water tank was demolished, and the refreshment rooms were converted to offices and waiting rooms. A new weighbridge was constructed in 1960. The railway station closed in December 1989. The memorial garden at the front, opened in September 1997, is dedicated to George Montgomery who was the last and longest serving stationmaster.

HISTORICAL NOTES

In 1906 Cecil B. Edwards arrived in Goomalling to open a branch of the National Bank in I. Royal's shop. In 1907 the bank was constructed. S.B. Marshall succeeded Edwards in 1913 and remained until after World War One. In 1947 the Roads Board acquired the building after discontent regarding the accommodation at the Memorial Hall and the need for more space after the Road Board took over the responsibility of the Local Board of Health. The bank building provided for the road board function and for the first time provided a residence for the Secretary. The bank moved to the corner of Railway Terrace and Forrest Street in 1945. Extensions were built in 1952.

B(-): 'Heritage List.' Retain & conserve.

HISTORICAL NOTES

With the completion of the railway to Goomalling in 1902, four licences were submitted to the magistrate for public houses in Goomalling, including Frederick William Welford, relevant to this site. Despite considerable evidence of the need for a licensed house in Goomalling, all four were rejected. It was rumoured that the government pressured the magistrate in favour of the State Hotels that had recently been initiated. After a full government inquiry the government was convinced that a licensed premises in Goomalling was necessary and was suitable for a State hotel. The government William Hardwick designed the hotel and land was set aside (reserve 9117) on the east side of Throssel Street. This action resulted in 3 of the four previous applicants withdrawing leaving only Welford, an experienced publican- Grand and Commercial hotels in Northam) to contest the issue. Welford's hotel plan had been prepared by architect EE Giles, and was far superior to the government proposals. In March 1904 after a contentious court hearing turning on the inadmissibility of the State's noticeboard, Welford was granted provisional licence. The hotel was completed in August 1904, and licence granted, that was subsequently transferred to Thomas Powell within three months. On 7 April 1905, Sir John Forrest and a parliamentary party visited. The licence changed hands a number of times, including in 1910 when W Darbyshire erected a training room for local footballers, and billiard tournaments took place in the Billiard room. In July 1911, the hotel was sold to Jerry McAuliffe who replaced the staff and renovated the hotel, altering and enlarging the bars, and a parlour created downstairs as well as adding 10 bedrooms, a large dining room, kitchen and adjoining shop. Mrs McAuliffe became the owner in 1919, and later (1923), Mrs Coombes (until her death in 1954). In 1927 extensive additions to accommodate more than 60 guests, and retail stores were added at ground floor level, and quarters provided for staff. The hotel also boasted an excellent sewerage system, and 14 lock-up garages. After local barber Frank Curtis returned from the war in 1945, he opened a ladies and gents hairdressing salon in one of the shops of the hotel. In 1975, the hotel was refurbished and rebranded as a Tavern; two small bars formed the saloon bar, and the dining room became a function room.

Reserve No:	Lot No. 4	Plan/Diagram 222510	C.T. Vol Fol 1043/322

STATEMENT OF SIGNIFICANCE

The Bakery (fmr) and Residence is a fine example of Federation Free architecture in a shop and residence, demonstrating a relatively high degree of authenticity. It has historical significance for the association with Mr Feasey as the first baker, and bakery in the town of Goomalling.

GRADE B: Shire of Goomalling 'Heritage List.' Retain & conserve.

CONSTRUCTION DATE	1914
Uses	
CONSTRUCTION MATERIALS:	Brick and corrugated iron
Other	
ARCHITECTURAL STYLE:	Federation Free
DESCRIPTION The single storey bakery shop fronts the street at zero setback with a skillion veranda over the pavement. Semi detached is the single storey residence setback from the street, also with a skillion veranda, although with a simple timber balustrade rail and a series of vertical timbers. The shop frontage features a decorative curved face brick gable with a curved stucco detail at the apex. The outside edges of the parapet have a decorative stucco ball each side. The shop front has a timber-panelled dado with shopfront glazing and multi-paned highlight windows. The entry is truncated on the residential side. The residence features a dominant flat-sheeted gable frontage with decorative timber fretwork detail to the bargeboards.	
CONDITION: Fair/Good INTEGRITY: Moderate degree AUTHENTICITY: Moderate/high degree	

HISTORICAL NOTES

Built for Mr N Feasey, the first baker in town. In 1972 Leo and Jan Condon sold the bakery that leo's father had started in 1914. The bakery closed 3 years later.

HISTORICAL NOTES

In 1949 the RSL organised the inaugural Goomalling Speed Car Classic. Such was its success that it was established as an annual event to raise funds for a War Memorial Swimming Pool as a lasting tribute to those who fought in World War Two. The event continued annually until 1955. A 1954 pool fundraiser was a Queen contest coinciding with the Queen's royal tour. There was much deliberation over the siting and even the advent of the pool but MB Royal heading the committee, was focussed and eventually the former school grounds was decided. 1/3 government funding was achieved, and considerable community volunteer labour carting bricks, making concrete slabs etc. The pool was opened on 28 January 1958 and had 3000 through the gate in the first week. Premier Hawke officially opened it on 28 March 1958 to a 1000 strong crowd. Interschool swimming carnivals were established with an MB Royal Cup, and an amateur swimming club developed. In 1993 new ablution block. On Remembrance Day 1995 (11 November) in a dedication commemorating 50 years of peace, a plaque was unveiled in honour of 15 men of the district who were died serving during World War Two.

HISTORICAL NOTES

In the decades leading to World War Two, many Aboriginal people still maintained strong affiliations with their traditions. It is recorded that corroborees took place near the stockyard site when Aborigines were passing through. Gatherings also took place at the Mortlock River crossing with the Toodyay Goomalling Road. In 1966 more than 200 Aboriginal people from around the state caught the train to Goomalling for the staging of a corroboree at Karranandgin. The services of the Aboriginal men were highly valued by the pastoralists and farmers. By the mid 1950s many Aboriginal families had moved to the reserve north of the town to access the water supply. In 1954, the Roads Board planned to connect water to the site, and applied for an area of land on Karranandgin Road that was subsequently gazetted as a Native Reserve. At the same time, the Roads Board applied to the Lands Department for blocks on the east side of Throssel Street behind the railway houses, to be made available for Aboriginal people with their new citizenship. The Reserve 13382 created on 26 May 1911 and was assigned for the purpose of the purpose of "Camping Natives" on 29 April 1960 and vested with the Minister for Native Welfare. The intention was to provide a camping ground for Goomalling's Aboriginal population. In 1972, the vesting was transferred to the Minister for Community Welfare and the purpose changed to "Community Welfare Purposes.". The vesting was revoked on 31 August 1973 and the purpose amended to "Recreation." There was much controversy regarding Aboriginal housing in the town. By the end of 1963 modern homes had been built for six families, and two transitional houses were under construction. The Shire Council stopped work on the construction of the transitional houses, claiming substandard and were adamant that the State Housing Commission houses should be provided. A deputation of Council met with the Premier David Brand in 1964 to put the case for conventional SHC houses to integrate the community. That initiative commenced in 1970.

The land is currently freehold owned by Shire of Goomalling. On 18 September 2013, Council and the Goomal Aboriginal Committee made up of descendants of families that were housed on the reserve signed a Memorandum of Understanding (MoU) to recognise the significance of the site to Aboriginal people. Form N1 Notification Under Section 70A dated 20 August 2014 was submitted to ensure that development of the land recognises its indigenous history.

HISTORICAL NOTES

In the 1990s CBH received record grain receipts from the Goomalling area. In 1994, to accommodate the increased grain yields and facilitated easy segregation of grains, CBH (Co-operative Bulk Handling) undertook a considerable upgrade of grain storage facilities at Goomalling installing 4 domes each with a capacity of 10,000 tonnes. The domes were the first of their type to be built in Australia for grain storage and hailed a new era in design and technology. The \$6 million structure represented the largest single investment in Goomalling.

HISTORICAL NOTES

Alfred Lockyer married Sarah Jane Woolhouse in 1870 and brought his bride to his property called Chatham after a village in England where Mrs Lockyer had grown up. They built a two-room mud bat house with a thatched roof. However it burned down in 1877 and they left for the northwest (founding Cooyapooya Station near Roebourne) leaving the farm in the hands of their shepherd Charlie Forward. In 1899 the family comprising 10 children, returned to Chatham and built his property to encompass 10,000 freehold acres of land. Alfred Brooks died in 1908.

HISTORICAL NOTES

In 1856 George Slater became the first permanent settler in the east of the district. He expanded his pastoral leases and purchased land in various strategic locations including at Bajorpin Well in 1879, where he established a flourishing vineyard that became known as Pear Tree Well. The Methodist Sunday School picnic in 1928 was a huge success attracting more than a hundred children. During the 1930s, A.D. Paxman established a vegetable garden on a stretch of the Slater property at Pear Tree Well. His daughter ran a market selling the fruit and vegetables and he delivered by cart, before establishing a shop. In 1947, a rifle club formed and utilised the VDC range that had been established at Pear Tree Well (until 1951). In the mid 1949, White Rock Quarries commenced a stone quarry operations near Pear Tree Well on Slater's property. The pistol club formed in 1960 was also located near Pear Tree Well.

STATEMENT OF SIGNIFICANCE per 'Register of Heritage Places'.

Slater Homestead, a group of buildings comprising stone walled and corrugated iron roof, schoolhouse and barn designed in the Victorian Georgian style, brick ruins of an inn and outbuilding stone wells, mature trees lining the roads and surrounding the spring, and various other elements including fences, has cultural heritage significance for the following reasons:

the place was the first European settlement in the area east of the Avon Valley, and was the place of the initial development of the region and town of Goomalling;

the stone construction homestead, schoolhouse and barn are fine examples of the Victorian Georgian style of architecture, applied in a rural setting, and together with the remaining elements, form a significant rural cultural environment;

the place is one of the few remaining examples in Western Australia, of a property developing from a pastoral outpost in the 1850s through to an agricultural property in the twentieth century, and including the development of a schoolhouse and inn;

the place was established and developed by George Slater, who was the first permanent settler east of the Avon Valley, in the mid 1850s;

the place is associated with significant explorers who mounted their expeditions from the homestead or passed through from the 1860s, and with the many gold seekers and travelers in the 1890s at the wayside inn;

the place is a landmark on the south side of a sweeping bend of the Goomalling-Dowerin Road, and has a significant visual impact on the wheatbelt roadside vista;

archaeological evidence at the place has the potential to provide information on the social, farming and cultural systems in rural Western Australia from the 1850s; and,

the social value of the place is demonstrated by the purchase of the place by the Shire of Goomalling in 2000, to ensure it is conserved for the future use of the community.

DESCRIPTION

The original homestead is typical of the conservative unsophisticated style commonly represented in country homesteads. Distinctions of the style include; rectangular form, symmetrical, well proportioned form, spreading verandas with posts forming colonnades, simple chimneys and medium pitch roof originally shingle roof cladding, that is replaced by corrugated iron. The 1907 addition shows influences of Victorian Georgian architecture, characterised by simple rectangular shapes, symmetrical facades (west), sash windows, corrugated iron roofs, and exposed brick or stonewalls. The three-roomed schoolhouse is rectangular in plan that includes the veranda on the southeast corner under the main roof. None of the three rooms connect. The stone barn is rectangular in plan, with an addition at the west end and veranda around the remaining perimeter.

HISTORICAL NOTES In 1911 the Jennacubbine Progress Association requested a grant for a hall. The Agricultural Hall Committee were at odds with the Jennacubbine Hotel syndicate who wanted a hall close to the hotel. Many meetings and discussions about the options for the site until 8 April 1914 when the original site was vested in the government. By 1934 a hall had not been constructed and the reserve was changed from hall to recreation ground to allow for sporting bodies and public conveniences, and was vested in the Goomalling Road Board. The hall was eventually built in 1953 by the Goomalling Road Board as a memorial to soldiers who served in both world wars. It opened on 17 April 1953 with a grand ball attracting a crowd of more than 400 people. In 1965 the Jennacubbine Sports Council was formed as a result of the improved tennis facilities and continuance of cricket and football. The Jennacubbine Race course was established in the railway siding area in 1906. Jennacubbine Grandstand relocated from Grass Valley Race Club in 1909. Damaged by a storm in 1942 and demolished in 1943 and remnants sold to pay the Race Club debts. In 1961 the Football Club cropped the race track area for community benefit.

HISTORICAL NOTES

In 1902, Archie Sydney Webb, tobacconist, was granted a provisional licence in his house at Jennacubbine siding on the Northam Goomalling railway line. With a provisional licensee, he erected a house comprising 2 sitting rooms and 5 bedrooms exclusive of private use, intended as an Inn or public house. The licence was granted and the Jennacubbine Hotel opened on 1 October 1902. In 1906, WE Collins became publican, and contributed to the community, chairing the Catholic church committee, and assisted in the establishment of the church and school in Jennacubbine before departing in 1910. In Albert T Harris took over, and in 1912 he was one of 4 men severely burned when a keg of whiskey exploded in a storeroom adjoining the hotel.

HISTORICAL NOTES

WE Collins the licensee of the Jennacubbine Hotel (1902) generously donated the land for the church, on the provision that the building also served as a school. On 7 November 1907 the opening ceremony of the church took place with a special train from Northam with over 500 people in attendance. Isidore is the patron saint of agriculturalists. The church was dedicated on 17 November 1907. A four-room cottage for the schoolteacher and visiting priest was also constructed on the site at the time. In 1913 a school was erected on JF Powell's Jennacubbine farm, and the teachers boarded at the hotel. It closed in 1955.

HISTORICAL NOTES

The desire to improve the welfare of country women and children, and bring them together led to the formation of the Jennacubbine CWA on 9 September 1933, in the school room. Meetings were held in the school room, private homes and the hotel parlour until their Rest Room was opened on 13 May 1953. The single room of pre-cut Asbestos cost £119. The CWA Rest Rooms provided a place for the travelling district nurse to support new mothers in the area. After the local store was destroyed by fire in the late 1960s, it operated from the CWA. The CWA organised annual Christmas trees and fancy dress frolics for the children. The CWA ladies have provided their home-style fare for many local clearing sales, and Northam stock sales. Membership has fluctuated over the years particularly during World War Two when a Red Cross branch opened and there were fuel shortages, threatening the closure of the CWA. In the late 1990s Jennacubbine CWA boasted being one of the most active CWAs in the Avon region.

HISTORICAL NOTES

In 1851 William Chidlow extended his already considerable pastoral leases that included Mumberkine. One of his shepherds was James Butterly. In 1854, an exploration party led by the government's Assistant Surveyor, Robert Austin, proceeded northeast from Dempster's Buckland property, camping at Chidlow's paddock in "Mumberkine".

Following the death of William Chidlow, in 1879, James Butterly took over his vast lease and settled permanently in Mumberkine where he built a stone residence and became one of the leading settlers in the area.

William H Butterly succeeded his father and served as inaugural Chairman of the Goomalling Road Board formed in 1895, and was a leading identity in the establishment of the Mumberkine Progress Association and the consequent Mumberkine Agricultural Hall (1898) and school (1898). Goomalling Road Board (1895) meetings were initially held at W.H. Butterly's Mumberkine House, and later in the rear room of Mumberkine Agricultural Hall until 1900.

The Church of England Reverend Edward S St Clairs, the Rector of Northam from 1891 assisted settlers in the establishment of agricultural halls, schools and facilities. On 11 September 1896, William H Butterly and Reverend Edward S St Clairs, representing the Mumberkine Farmers' Association, made application for land at Mumberkine for an Agricultural Hall on land excised from WH Butterly's property and formed as Reserve 3660. BD Clarkson MLA was elected inaugural President, with Reverend Edward S St Clairs as Deputy, and Alex Glass as secretary. foundation stone was laid on 17 November 1897, by BD Clarkson, and the hall was opened by the Commissioner of Crown Lands George Throssell on 2 September 1898.

In 1898, the Mumberkine Literary Society had been established for "the mutual improvement and general advancement of young settlers in the area", meeting fortnightly to debate topical issues. A St David's Mission was run by WGH (Gwlym) Rees a Welsh Episcopalian who resided at Butterlys. In 1919 the Reverend RJ Smith arrived as Rector for the Anglican Church and held regular services in Mumberkine hall and others in the district.

In 1959 Mrs M Madew of Jenacubbine commenced Sunday school classes for children of families in Mumberkine. Following a public meeting in October 1961, residents of Mumberkine agreed that Mumberkine Agricultural Hall be transferred to the Anglican Church Trust as a church known as St Lukes.

By 1988 building no longer in use and Shire recommended demolition. A group of 22 concerned residents met and determined to retain and maintain the hall, financially bear the costs of maintenance and restoration and attempt to have ownership passed to the community. In 1994, the property was still owned by the Church of England.

Butterly's property. Early Roads board meeting held. In 1851 William Chidlow extended his already considerable pastoral leases that included Mumberkine. One of his shepherds was James Butterly took over his vast lease and settled permanently after Chidlow's death in 1879.

Butterly built a stone residence and outbuildings that included a traveller's room. He added a schoolroom and living quarters for a tutor he had engaged for his seven children. During the 1870s he expanded his freehold landholdings and became one of the leading settlers in the area.

William Harding Butterly succeeded his father James' estate. He married Emily May in 1880 and they had a family of eight children. He served as inaugural Chairman of the Goomalling Road Board formed in 1895, after serving on the Newcastle Road Board between 1885 and 1889, and again from 1901 after retiring from the Goomalling Road Board. He was a leading identity in the establishment of the Mumberkine Progress Association and the consequent Mumberkine Agricultural Hall (1898) and school (1898). Following his death in 1905, his eldest son Lionel leased the property out, but later farmed it in partnership with his mother until her death in 1927. The property was sold to Matt Clarke who built a new home in 1933.

With the establishment of the Goomalling Road Board in 1895, meetings were initially held at W.H. Butterly's Mumberkine House, and later in the rear room of Mumberkine Agricultural Hall until 1900 when the meetings were relocated.

HISTORICAL NOTES

In the 1860s, James Dempster had the grazing rights over most of Wongamine, expanding to Mumberkine region, adding freehold titles in the 1870s. With the growth of population after the convicts from 1850s, settlements spread east from Toodyay and one of the first areas of smaller farmlets was Wongamine, on the western fringe of the Buckland properties. The area became populous and combined forces to push for agricultural hall, school and other facilities. The Wongamine Agricultural Hall opened on 8 May 1896, by Commissioner of Crown Lands, Mr Richardson. An athletic sports day commemorated the event, with a ball in the evening. In 1911, the original school was abandoned in favour of the hall that was more centrally located. The Education Department paid an annual rental whilst the residents continually petitioned the Education Department for a school. School attendance had increased and the inconvenience of re-arranging for the dances, church services, social functions, meetings and sporting events at the hall. However it wasn't until 1924 that a school was relocated from the Norman Estate in Toodyay area, to Wongamine. It operated from that site just east of the hall until 1945 when bus services were introduced to Northam.

HISTORICAL NOTES

As early as the late 1840s, James Dempster has secured pastoral rights over the Wongamine area and other areas. Michael Bowen, a convict granted a conditional pardon which meant freedom, applied for 50 acres of Dempster's pastoral lease above Wongamine Brook. In his Ireland homeland he had been convicted of sheep stealing and received a 10-year sentence in 1851. After the Toodyay Convict depot, and work at Glen Avon, he took up his own land. Bowen established a mud bat cottage on the property in 1867, after marrying Ellen Bourke in 1859. In 1874 he constructed a 9-room brick homestead for his family of 7 children. Still occupied by the Bowen family in the 1990s.

STATEMENT OF SIGNIFICANCE

Oak Park is significant in representing the social and recreational hub of the Oak Park community at Lake Walyormouring.

GRADING C: A site of some cultural heritage significance to Shire of Goomalling. Recommend: Archival record; Interpretation.

HISTORICAL NOTES

With the opening of the railway through to Goomalling in 1902, the region immediately around Lake Walyormouring, known as Oak Park was quickly taken up. Lake Walyormouring Nature Reserve was proclaimed in 1924. There was a Stock Water and Traveller's reserve on the north side of the lake. Gnarma holes demonstrated the significance to Aboriginal people. A community developed as settlers established in the area, coming together at the lake area. In 1904 a cricket club was formed at Oak Park, and in 1907 a cricket pitch was laid. Oak Park picnics started annually in spring in 1906, and were so successful, they led to the Oak Park Progress Association being formed in 1909. A substantial bough shed- to accommodate 60 people was constructed in 1912, and a meeting in 1913 called for a hall. By 1914 a hall was erected close to the Walyormouring School that had been erected in 1913. Controversy over the school site and other options continued for years. Fortnightly church services were held in the hall under the guidance of Anglican and Methodist clergies. By the 1930s the advent of the motor car meant people travelled further for their social and sporting activities, and the picnics declined and ceased in 1934.

In 1995, as part of Goomalling's centenary celebrations, a picnic was held at Oak Park, noting the Eucalyptus tree that was planted by Sophie Spark more than 80 years previous, at the school site.
